

7 August 1972

STATINTL

NOTE FOR FILE:

 DD/OSR, called and said that his office had taken the information set forth in Jane's Fighting Ships and determined that on the Jane's information the Soviet vessels in Table 1 would cost just under \$95 million if built in our yards. I talked to Derrick Van der Shafft, of the House Appropriations Committee staff, who will add this item by covering note to the blind memo of 3 August for Representative Sidney Yates (D., Ill.).
